

Addendum-3

Concerns have been raised by some of the potential bidders that the authorized signatory himself is not able to upload a large number of bids/documents in the ETS portal and have sought clarification that whether the authorized signatory can delegate the power of uploading the bids/documents to another officer of the bidding entity.

It is clarified that ACBD (para 2 of Sr no. 3.9) requires bidder to create one or more Marketing Authority (MA). The MA has the authority to upload the bids/documents in the ETS portal. However, the authorized signatory will need to put his digital signature on each bid/document.
